

Accessories Glove Tester

- Fully automated measurement
- Instant ready for measurement
- Automatic glove filling
- Superior hole detection
- Fast glove integrity verification
- Reliable in-situ testing
- 100 % mobility
- compatible with all glove types (CSM, EPDM, etc.)

Information and Technical Data

Fully automated measurement

with preconfigured parameters tailored to your glove type and detection requirements

Immediately ready for use

unpack, insert and start the automated measurement

Automatic glove filling

no additional air supply needed with automatic glove filling pump

Superior hole detection

of holes smaller than 100 μm while maintaining short testing time spans

Fast glove integrity verification

commencing from 15 minutes total test time, depending on glove material

Reliable in-situ testing

without jeopardizing glove integrity by glove removal or manipulation

100 % mobility

lightweight and completely wireless glove testing system

Customizable to your requirements

in size, shape and material

Cleanroom suitable

IP64 certification and easily replaceable 0.3 μm filter for air intake

Easy cleaning and sterilization

glove tester built with minimal grooves and edges

Status-related information

pressure gauge, battery status, measurement information and results shown on digital display

Simplicity of operation

intuitive two button interface

cGMP compliant

Long operating time

for repetitive measurements to validate your entire isolator/RABS without interruption

Electronically controlled clamping and sealing of glove port

with pneumatic inflated rubber seal

Slim and ergonomic design

thin casing of only 5 cm incl. automatic glove filling pump

Not intended for use in ATEX zones

Services

Custom glove integrity test parameters to your requirements

Qualification Services (IQ, OQ and more)

Extensions / Options

Easily interchangeable external battery or device integrated battery

Integrated RFID-chip for automatic port recognition

Selected Equipment

Transport and storage trolley

Storage bracket

Single charging station

5-fold charging station
